

# GAP PROTECTION

## WHY PAY FOR AN ASSET YOU NO LONGER OWN? PROTECT IT WITH GAP

ASG's Guaranteed Asset Protection (GAP) helps cover the remaining balance on your loan if you experience a total loss before it is paid off.

Most insurance policies only cover the actual cash value of your asset. As a result, there can be a substantial "GAP" between your loan or lease and the amount your insurance company pays to replace your vehicle.

GAP settles the difference between your primary insurance settlement and your remaining loan balance at the time of loss. GAP may also cover your primary insurance deductible.\*

*\*Subject to the terms, conditions, limitations and exclusions set forth in your contract.*
